Memory capacity 640,000stitches(up to 99 designs)

features

Accurate Thread Break Sensor
Sensors detect upper and lower thread breaks, automatically stop the machine and beep to alert of the interruption.

15 Colors, High Speed, Large Stitch Area
Stitch small logos or large jacket back designs at a fast speed of 1,200 stitches per minute, with up to 15 colors and automatic thread trimming. New mechatronic technology permits the operator to select frame movement speed and needle timing for fine tuning the stitching process.

Friendly to safety operation and working conveniences
Good user ergonomics is built into ESP9100NET. All features are within quick reach of the operator. The LCD control panel tilts for easy viewing. To enhance the operator

safety, the machine will operate only with the face cover closed.*

*ESP9100NET only

Easy Change Over
Changing from tubular to cap or cylindrical embroidery is quick and easy. With easy to use attachments, you can minimize downtime for quicker response to customer demands.

Quiet Operation ? Very Low Vibrations

ESP9100NET offers a unique belt drive system for the upper and lower shafts, resulting in significantly reduced noise levels, and it makes more comfortable environment.

Portability will suit your needs.
ESP9100NET is portable enough to go anywhere. It fits easily through a standard doorway, and in most compact vans. Take it to fairs, rodeos, car & boat shows, etc. or your favorite market. You have unlimited business applications with ESP9100NET.

Very compact, Easy-to-Use Control Panel !

Simple panel with LCD guide, and multi-language display, realize easy embroidery operation including simple editing such as design repeat, rotation, etc.
ESP9100NET allows the operator to resume stitching on a partially completed design after the machine has been turned off.

Liquid Crystal Display : Displays production data such as the number of the embroidery job completed, total stitches performed as well as time when lubrication is needed.
Trace : Allows the operator to confirm the size of the pattern before embroidery.
Edit Functions : Enables stitch length adjustment for satin stitches in 5 increments.
Move Hoop (offset) : Allows the operator to move the hoop to the desired preset

position, simplyfying applique embroidery and hoop changing.
Memory Retention : You can resume stitching a partially completed design after the machine has been turned off or power failure occurred
